POINTS ABOUT BUGGIES TO BE CONSIDERED!

The Style! The Quality! The Price!

The large assortment that we carry, together with the HIGH QUALITY of same and our VERY LOW PRICES, are responsible for our rapidly growing business. A large number of people are showing their appreciation of these points by trading with us, and are thereby increasing our business very materially, as well as

Saving Themselves Money.

This last point is what touches a tender spot with most of us, but we want to say that IN NO INSTANCE DO WE SACRIFICE QUALITY FOR PRICE,

We Sell the Best Buggy Made,

No exception, and while it may cost more than some others, it is not way up in price.

Bennettstown Prohibitionists Win Big Victory.

Election Saturday Results In Majority of 44 For Local Option.

The hard fought prohibition contest in the Bennettstown district of Christian county was ended Saturday by a decisive victory for the dry side.

The vote stood 69 for license and 113 against, a majority of 44 for prohibition.

There were 203 votes in the district and only 21 failed to vote. Most of those were white people away from home. Of the colored voters about 35 voted with the dry side.

The leading prohibition workers were J. R. Brame, P. E. Sherrill, T. L. Moss, M. J. Cooper, J. J. Stevenson, W. W. Thomas, J. Thomas, W. J. McGee, Scrogg Tuck, col., and Abram Braine, col. Rev. E. L. Roberts, of Princeton, and Rev. E. C. Leeper, pastor of the local C. P. church, conducted the speaking and Robt. N. Lander, col., and Eph Poston, col., spoke to the colored voters. The fight was waged fiercely for two weeks, with speakings every night and a house to house canvas.

The election passed off quietly, Sheriff Davis being on the ground in person.

J. J. Stevenson, Gus Miles, W. G. Fox and Jack King, col., were the officers of the election. R. T. Pace and T. L. Moss were challengers.

A committee of ladies headed by Mrs. M. S. Major, Mrs. P. E. Sherrill, Mrs. F. M. Girard, Mrs. J. Thomas, Mrs. W. W. Thomas, Mrs. Feize, Mrs. J. R. Brame and daughter and the Misses Stevenson worked at the polls all day, pinning on badges and pleading with the voters.

Prof. Vaughan, the colored school teacher, formed his school into a glee club and did good work for prohibition. They sang songs, recited prohibition pieces and attended many of the meetings in a body.

After the polls closed the prohibition workers sang at the polls "My Country 'tis of Thee," and at eight o'clock at night a praise and prayer service was held at the C. P. Church. Bennettstown has been dry for 15 years. A vote was taken eight years ago and the drys won by 22 votes, just half the present majority.

Sunday night at the Methodist church in Herndon another praise meeting was held.

"I come from a state that knows something of hospitality. Our broad acres wear the emerald fringe eternally. Our mountains are not as high as yours, but they stand as stately sentinels to guard the grand old Commonwealth. I shall bear back with me the memory of the love and kindness of the people of the jewel city of this intermountain land to a wanderer of Old Kentucky."

At His Home By Leading San Francisco Men.

Reflection on a Young Lady Leads to the Wounding of Publisher Fred Marriott.

San Francisco, Sept. 4.—Fred Marriott, publisher of the San Francisco News-Letter, was shot last night at his home, three times, and seriously wounded.

His assailants were Thomas H.

Williams, Sr., president of the California Jockey club, and Truxton Beale, former United States minister to Persia and Greece. [redacted]

Neither will say who did the shooting, but Marriott says that it was Williams.

Williams says the shooting was done in consequence of a publication reflecting on the reputation of a young lady.

GASTRITIS.

Caused by Some Irritant Acting Upon the Mucous Membrane of the Stomach.

Inflammation of the stomach, gastric catarrh or gastritis, as this disease condition is variously called, may, like most inflammatory diseases, be acute or chronic in its course. The symptoms of gastritis are more or less severe, weak pulse, loss of appetite, coated tongue, foul breath, bad taste in the mouth, headache, dizziness, etc. There is sensation of weight or distress in the stomach. Gastritis is caused by some irritant acting on the mucous membrane of the stomach; the irritant is often formed in the stomach by the fermentation of indigestible food. Gastritis is a common disease, especially among the poor. One can take regularly Dr. Caldwell's Syrup Papain, the guaranteed cure for indigestion, constipation and all diseases arising from stomach trouble. Dr. Caldwell's Syrup Papain is an all year round medicine. Good for the whole family, especially as the candidates put on the stump would probably be unable to lighten the labor of Italian prison officials. The convicts get two full meals of beans, lentils, or paste, cooked in lard, and meat on Sundays and holidays. Every prisoner may spend 25 centimes a day if he has it or can eat it; therefore wine is by no means an unknown luxury in the prison.

STATE PRIMARY.

It is Reported That the Sentiment Is Against It.

Frankfort, Ky., Sept. 1.—The sentiment against a primary in view of a delegate convention to nominate Democratic candidates for state offices, and the question as to whether or not the primary can be called under party law, seems to have hit the primary faction a solar-plexus blow and it looks as if there is small chance of their having it called. A prominent Democrat said to day that he believed if a state ticket should be nominated by a primary the disruption of the party would be such that there would be a strong probability of the defeat of the ticket in the general election, especially as the candidates put on the stump would probably be unable to lighten the labor of Italian prison officials. The convicts get two full meals of beans, lentils, or paste, cooked in lard, and meat on Sundays and holidays. Every prisoner may spend 25 centimes a day if he has it or can eat it; therefore wine is by no means an unknown luxury in the prison.

FOWLER SUSTAINED.

Attorney General Says Flagistrate May be Elected.

Frankfort, Ky., Sept. 4.—Attorney General Pratt has on request of Gov. Beckham construed the law as to the filling of vacancies in such offices as Police Judge and Justice of Peace at the coming November election. He holds that such vacancies can only be filled in the Appellate Court districts in which there is to be an election this fall for Judge of the Court of Appeals, and that where a Police Judge or Justice of Peace appointed more than three months ago is not in one of these appellate districts he holds over until the regular election in November. The question arose in Edmonson county. The decision has been put off on the question raised in the Bell Hill district of Christian county.

DEATH OF MOSES POTTER.

A GREAT PRISON HOUSE.

in the Fortress of Volterra, Italy, At 473 Condemned Murderers.

The medieval fortress of Volterra, says the St. James Gazette. When last I visited it there were 175 prisoners within its walls, all of them murderers. It is an uncanny sensation to look upon nearly 300 human beings, each one of whom has taken the life of at least one other human being. One hundred and forty-nine of them were condemned for life, and that meant murder of a brutal and cold-blooded description; the remainder were imprisoned for periods ranging from 15 to 30 years, and that would mean murder with extenuating circumstances—murder the result of inconstancy in a sweetheart, or frailty in a wife, or faithlessness in a friend. The confinement is rigorously solitary and cellular; the exercise courts are cellular; there are cellular smithies and cellular workshops; nay, the very chapel is cellular. Two tiers of cells run one above the other, and the prisoner in each, while unable to see his fellow convicts, can through a long narrow loophole see the altar and the priest who is saying mass.

As I walked round the ramparts of the great fortress, I could look down into the rows of high walled exercise courts—not more than 10 feet by 10, I should say—in each of which the convict was taking the hour of exercise which he is allowed daily. Every prisoner saluted respectfully, and showed his white teeth in a pleasant smile, glad at the sight of any face. Italian prisons are models of good order and cleanliness, and the cheerfulness and natural patience of the Italian temperament does much to lighten the labor of Italian prison officials. The convicts get two full meals of beans, lentils, or paste, cooked in lard, and meat on Sundays and holidays. Every prisoner may spend 25 centimes a day if he has it or can eat it; therefore wine is by no means an unknown luxury in the prison.

Every prisoner may spend 25 centimes a day if he has it or can eat it; therefore wine is by no means an unknown luxury in the prison.

As I walked round the ramparts of the great fortress, I could look down into the rows of high walled exercise courts—not more than 10 feet by 10, I should say—in each of which the convict was taking the hour of exercise which he is allowed daily. Every prisoner saluted respectfully, and showed his white teeth in a pleasant smile, glad at the sight of any face. Italian prisons are models of good order and cleanliness, and the cheerfulness and natural patience of the Italian temperament does much to lighten the labor of Italian prison officials. The convicts get two full meals of beans, lentils, or paste, cooked in lard, and meat on Sundays and holidays. The statement that no man is stronger than his stomach will appeal to every man who has ever suffered from stomach "trouble." He will remember the growing feeling of weakness until he was hardly able to crawl around, and could work only occasionally, but the dyspepsia roots in the fact that the stomach attacks the stomach and other organs of digestion and nutrition.

Raised from the Dead.

C. W. Landis, "Corporer" for the Original Corp. of Chaute, Kan., says "I know what it was to suffer with neuralgia, "dead I did, and I got a bottle of Ballard's Snow Liniment and I was raised from the dead." I tried to get some more, but before I had "deposited" my bottle, I was cured entirely. I am sure it is true too, as 25c and \$1.00 at R. C. Hardwick's.

CARELESS OF OTHERS' LAWNS.

People in Cities Forget That They Cost Time and Money.

"The uses of grass in cities would be a good topic for the good government clubs or the civic associations that have to do with promoting the welfare of the community," was the observation made by a lady as she sat looking out of the front window of her house in the residence section of the city, records the Washington Star.

"I have no doubt that is a good suggestion," rather dryly remarked a caller, who was sharing with her hostess the satisfaction of looking upon the beauty of the springtime in the city as exhibited in the fresh foliage of the trees and the rich green of the lawns; "but I hardly appreciate its full force. I don't imagine you are an advocate of the use of grass as an article of food."

"Hardly that," was the goodnatured response. "But if the advocacy of such an idea would serve to impress upon the public mind the value and importance of grass I think I would be willing to do it in theory, at least, but not in practice. I see so much carelessness on the part of people who ought to know better that it is not surprising to see children trampling over the parking in front of houses and walking down the little streets as though they struggled to come up in the spaces reserved for such a purpose on each side of the trees that border the sidewalks. To save a few steps in turning a corner many people will, thoughtlessly, I hope, walk over a section of the lawn instead of keeping their feet where they belong, and that is on the sidewalk."

"That is the good natured response. But if the advocacy of such an idea would serve to impress upon the public mind the value and importance of grass I think I would be willing to do it in theory, at least, but not in practice. I see so much carelessness on the part of people who ought to know better that it is not surprising to see children trampling over the parking in front of houses and walking down the little streets as though they struggled to come up in the spaces reserved for such a purpose on each side of the trees that border the sidewalks. To save a few steps in turning a corner many people will, thoughtlessly, I hope, walk over a section of the lawn instead of keeping their feet where they belong, and that is on the sidewalk."

or disease. There were 396,081
English troops beside 52,414 native

acting directly upon the blood and

cer's Stock.Here is one of those "Tales Worth
Telling" from the Philadelphia
Times which shows that some wgm-
en can be just as sharp at a dicker as
any man: "A brisk, sharp featured
little woman, says a Kensington
dealer in groceries and produce, entered
her store recently and, after
making some purchases of canned
goods, asked for half a peck of apples,
but made the condition that the aples
should be those that had grown on 'branches with very
dark leaves'; otherwise, she said
she would not make a purchase."The grocer frankly told her
that he bought apples by the lot and
was not able to distinguish between
those grown on one branch from
those grown on another. "Pears to
me," she snapped, "you never lived in
the country, as I did." "I can tell 'em
on sight." He coolly waded her
toward the apple barrel and told her
to pick out the fruit from the dark-
leaved branches. She promptly seized
the measure and filled it with the
largest, choicest fruit from the bar-
rel."**MOSCOW.**Now Rank as Tenth Among the World's
Populous Cities.The population of Moscow shows
a remarkably rapid increase. Within
the comparatively short period of 30
years the number of inhabitants has
just about doubled. At the time of
the French invasion in 1812 the urban
Moscovites numbered about 300,000,
though the official figures were
252,000. In 1871 the official census
gave the population as 602,000, in
1882 it was 768,000, and according to
the reckoning now completed the
historic capital contains 1,173,500
inhabitants, thus taking the tenth
place among the most populous cities
of the world. Moscow covers an area
of 101 square kilometers or only two
kilometers less than that of St. Peters-
burg. Area is not, however, by
any means a general criterion, in
questions of population, as appears
from the fact that whereas London,
with the largest population of any
city in the world, covers 303 square
kilometers; New York with a popula-
tion numbering more than a million
less than that of the British metropolis,
has a total area of 795 square
kilometers. The population of Mos-
cow is less dense than those of St. Peters-
burg, Glasgow, London, Ber-
lin and Paris.—London Standard.**Long-Lived Fish.**There are now living in the Royal

at Great Speed.**Louisville, Ky., Sept. 8.—Sure
enough novelties are to be presented
by the Kentucky State Fair Asso-
ciation at the Churchill Downs
grounds in September, this state-
ment being authorized by Secretary
M. W. Neal, who says that no such
old things as the "Midway" are
being considered.A contract was closed whereby,
on Tuesday, September 23, there is
to be a collision between railroad
engines of at least 200,000 pounds
each. While these engines, of
course, have been condemned, they
are capable of great speed, and
will clash while going at no less
than forty miles an hour.A special track will be construct-
ed, a spur being necessary from the
Southern railroad to get the engines
into the fair grounds. They will
each have a fireman and engineer,
who will cause the iron monsters to
go through some evolutions, then
the fire box filled and the throttles
thrown open, engineers and firemen
will leap for safety and let the pub-
lic witness what, most unfortunate-The only kind of consump-

PROVIDENCE BRANCHTo Be Extended Distance of About
Forty Miles.Madisonville, Ky., Sept. 6.—The
Louisville & Nashville Railroad
Company now proposes to make a
move that will beyond all question
mean a great benefit to Western
Kentucky, so it is stated, which state-
ment comes from pretty good
authority. This company proposes
to extend the Providence branch of
their system, which stops at Prov-
idence, through to Shawneetown,
Ill., a distance of about forty miles
or more. This will pass through
the richest mineral and timber
lands in this section, besides giving
this great system a nearer course
into the city of St. Louis, the point
of destiny on this line. This would
connect with another line belonging to
the same company which leads
into St. Louis, making the distance
about twenty five miles less than at
present.**REPORT ISSUED.**General Condition of Crop Over

AN HONOR FOR COL. HENRY.
He is Appointed District Deputy of
The Elks in Kentucky.

Omaha Neb., Sept. 5.—Grand Exalted Ruler Geo. P. Cronk has tendered the appointment of District Deputy for Kentucky to Jettent Henry, of Hopkinsville, who has replied that he would be glad to accept the honor. Mr. Henry was speedily indorsed, and the Grand Exalted Ruler has every reason to believe the new appointee will prove a brilliant acquisition to his official family. Mr. Cronk expects to visit Kentucky during the coming winter.

PEMBROKE SCHOOLS

Opened Fall Session with an Increased Attendance.

The graded school at Pembroke opened last week with 150 pupils enrolled, a sharp increase over last year. The total enrollment last year was 180 and this year the 200 mark will be passed. Prof. C. E. Dudley, the principal, is assisted by several lady teachers.

Dynamite a Bank.

Elizabethtown, Ky., Sept. 5.—An unsuccessful attempt to dynamite the bank at Sonora was made by unknown burglars last night. The noise of the explosion aroused the cashier, who fired upon the burglars. The fusilade was returned, after which the would-be robbers escaped.

Devoured by Worms.

Children often cry, not from pain, but from hunger, although fed abundantly. The entire trouble arises from inactivity; their food is not assimilated, but absorbed by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once, very much the surprise and joy of the mother. 25c at R. C. Hardwick's.

It is said that the Cumberland City people are thinking of extending their lines to this city. The line has already been extended to Lafayette.

NO ACTION TAKEN

By the Council Looking to The Sale of a Telephone Franchise.

The regular monthly meeting of the City Council was held Friday night.

Reports showed \$609.51 of fines assessed, \$13 collected, \$191 worked out and \$167.51 paid. Fines outstanding \$205.

A. D. Jones was granted license to run a saloon on Seventh street.

The old entrance to the cemetery was exchanged for ground nearer the river, to make a new entrance.

Health Officer Woodard recommended that a sewer pipe be laid in the river. The city engineer was instructed to look into the matter.

An ordinance was passed making it a fine of not less than \$5 nor more than \$50 for a minor to go into a saloon except on business in following his trade, or by the written consent of his parents.

No action was taken looking to the sale of a telephone franchise. That of the Cumberland Telephone company expired August 2 and the company is now operating without a franchise.

Couldn't Eat Meat or Solid Food.

An interesting case showing the effect of P. D. O. on indigestion is reported by John Canada, 22 Putnam street, Nashville. He says: "I took Pre-Digested Oil according to directions and can say with much delight that the medicine is almost as good as any doctor's medicine ever did. And it is so pleasant to take. Before taking Pre-Digested Oil I was so troubled with indigestion and all the different ailments that I never thought there couldn't eat meat or any solid food scarcely."

But now, thanks to P. D. O., I can eat almost anything without feeling the least bit of pain."

Pre-Digested Oil (P. D. O.) enters the body directly and at once relieves that organ of the task of digesting what it finds there. One teaspoonful after each meal will cure the most stubborn case of indigestion quickly.

Brown Oil Ointment cures all sores, piles and skin diseases. Both for sale by all druggists.

A Few Conundrums.

What has only one foot?—A stocking.

How do bees dispose of their honey?—They cell it.

What game do the waves play at?—Pitch and toss.

What soup would cannibals prefer?—A broth of a boy.

What sort of men are always above board?—Chessmen.

Who is the oldest lunatic on record?—Time out of mind.

When is a man more than a man?—When he is beside himself.

Have you a sense of fullness in the region of your stomach after eating? If so you will be benefited by using Chamberlain's stomach and liver tablets. They also cure belching, sour stomach and regulate the bowels. Sold by C. K. Wyly.

FALL FESTIVAL O. K.

Fire in Cincinnati Does Not Burn Music Hall.

The proverbial luck that has attended the Cincinnati Fall Festival attended it through the terrible fire which last Thursday morning wrecked the Temple of Music and the Odeon buildings adjoining the famous Music Hall, where already booths for the Fall Festival were built and decorated. The roof of the South wing was broken and water poured on the floors of the music hall building. The efforts of the Exposition have met with the warmest enthusiasm. Through their foresight and the gallantry of Cincinnati Fire Department, the Fall Festival will be opened at the date originally named, Sept. 15, with every exhibit in perfect order and no trace of the recent conflagration.

On the commencement of the fire, Mr. Fouls president of the Association, drove at record breaking speed from Avondale to the Music Hall, where the directors living nearer had preceeded him. Together they rushed to the Art Gallery and rescued the famous \$100,000 picture, "The Fall of Babylon" carrying the charred box to a place of safety with faint hope that the picture would ever again delight the eye of thousands. The charred timbers were pried apart and in all its gloomy Roche-grosse's master piece was spread out the colors as fresh and glowing as when he first laid them on paper.

The conventions, including that of Editor's Day will be held on Music Hall Stage instead of the Odeon. The vaudeville will be transferred to the Plaza. An army of 1300 men are clearing away the debris, and the decorators are putting up fresh bunting. The Fall Festival came through the fire triumphant.

September 15 will see an exhibition greater and more complete than any ever held in Cincinnati. A Fall Festival Directorate, justly elated at having averted a threatened calamity and a city united to a man in celebrating the Fall Festival.

CAPT S. A. FORD

Elected Supt. of The Confederate State Home,

At a meeting of the commissioners of the state home for Confederate Veterans held at Louisville, it was decided to locate the home at the Bear Valley. Capt. S. A. Ford was elected on the third ballot superintendent. Much interest was taken by the Henderson Confederates in the election of Capt. Foard of Owensboro, and the news of his success will be pleasantly received by them. Capt. Ford campaigned through the greater part of the war with Gen. Joe Shelby, the famous commander of the West Mississippi department and was one of his most trusted officers. He is a man of great courage and a splendid disciplinarian, a gentleman every inch of him and esteemed not only by the old Confederates but by all who have the pleasure of his acquaintance.

There will be in the Festival the Swiss Chait, the Palm Garden, the Gipsy Camp, the Military Camp of the O. N. G., the lively parisian novelty of the Moulin Rouge and the charming Juvenile Theater in the Mystic Maze. The procession will be the Georgeous Night Pageant of the Mystic Order of Itan-Nic-Nic, the Civic Demonstration, the pageant of the Ancient Order of Foresters, of Pioneers, of Essene Knights, and the military and civil escort of President Roosevelt to the Fall Festival.

Two beautiful Flower Shows and a Sunday Night Concert of Sacred Music combining a chorus of 1000 voices, a quartet of noted soloists, orchestra and organ, the big Organ.

These attractions and big feasts

will be random from the great scenes of those to be seen at the Fall Festival, the enumerating of which would be almost impossible.

EXAMPLE FOR BOYS.

It is Found in the Career of Prof. S. P. Brooks.

Box from Section Hand on Railroad to College President by its own Endeavors and Commandable Ambition.

From the position of section hand on a railroad, where he worked with a hand of an educational institution of unquestioned standing, as the novitiate made by S. P. Brooks, who has just been elected to the presidency of Baylor University at Waco, Tex.

Early in his life, while he was a toll-keeper on a bridge, he was a member of the Santa Fe railroad. Brooks made up his mind that he was not cut out for a section hand and set out to fit himself for something better. It never occurred to him that his efforts would result in your success successfully, and that his confidence and determination he set out to make the most of his limited opportunities. He was now 45 years old, and the predominating ambition of his life was realized when he was selected to preside over Baylor university. It was there that he was enabled to continue his education through the influence of the faculty that he was enabled to continue the course and complete his education.

Less than 20 years ago Brooks was a member of a section gang and, as might be expected when his subsequent career is taken into account, one of the best "bands" on the road. Whatever he undertook he did well. With his foreman he was popular. He was upright, industrious, honest and conscientious in his work, yet he was not liked by the other hands because he was more interested in his work than engaged in pastimes of questionable propriety. During the noon hour, when his fellow-workmen were swapping yarns or playing cards, young Brooks usually sought a shady spot under some friendly tree, and here

PROF. S. P. BROOKS.
(College President Who Began Life as a Section Hand)

gave himself over to study or reading. In the section-house at night, and while working by day, he studied. From work on the railroad, he gave his undivided attention to such books as he was able to lay his hands on or buy with the money he saved out of his earnings. Even the other section men gradually came to realize that this individual was different from the others from the rest of them, and their dislike for him finally grew into toleration, and then deep admiration. The unambitious laborers began to utilize him as a sort of bureau of useful information. He was also their supreme court to whom all questions debated by the gang were referred for final decision.

He worked for the Santa Fe railroad between Galveston and Brenham for a year or more, and during all this time the foreman was never compelled to charge him for a day or hour of lost time. Another thing said of him is that he never lost a broken bone or a fragment of any kind, and his spade was not only always in place, but was as bright as a dollar and as sharp as it is necessary for a spade to be. While young Brooks was working on the railroad, he was constantly looking forward to the time when he would be financially able to enter college. At the end of a year's service he had saved enough money for one year in Baylor university, which he entered. His distinguished character and his evident determination to make the most of every opportunity attracted the attention of President R. C. Burleson, the founder of Baylor in the days when Texas was a republic, and who remained at the head of the school until it had grown into the chief secular institution of learning in the southwest. He talked with the young man, and learned of his ambitions, and an arrangement was made by which Brooks was enabled to get through his second session at the school.

After graduating at Baylor university in 1881, Brooks was a member of the faculty until two years ago, when he entered Harvard to take a post-graduate course.

Prof. Brooks now ranks easily among the ripest scholars in the west. He is a fine speaker and has won the distinction as a lecturer. He speaks rapidly, enunciates distinctly and gesticulates with grace and force. He is easy and dignified, and his eloquence at times is impassioned. There is a degree of self-assertiveness and earnestness in his style that causes his audience to lose sight of the man entirely and become completely absorbed in the presentation of his theme.

Prof. Brooks will take charge of the institution at the close of the present term.

Gold Dollars for 35c!

THE monopolistic tendency of the times is such that the small investor no longer has a chance to buy stock in the great trusts over the country and which pay enormous dividends. Mining, however, offers to the small investor in legitimately conducted companies that possess proprieties of merit, unexpected opportunities for safe and extremely profitable investment. Hundreds of cases could be cited where small investments in honestly conducted mines have yielded quick and handsome profits on the investment. At one time you could have bought Calumet and Hecla for \$100 per thousand shares, now selling at \$650,000 per thousand. Did you buy Gold Coin at \$50 per thousand and which advanced to \$7,500 per thousand in less than three years? Did you buy LeRoi, Homestake, Portland, Consolidated Virginia, Lamartine or any of the hundreds of other high priced stocks at the beginning? If not, perhaps you can recall instances where friends have done so.

The Consolidated Alpine

Of Idaho Springs, Colo., is an opportunity, not a chance; none of the above had better prospects at the beginning. Do not hold the dime so close to your eye that you cannot see the dollar that lies behind it. An intelligent investment by you shows your business sense. The only difference between you and men who have accumulated wealth is that they made their money by investing their dollars and you depend on the result of your labor or the sweat of your brow. Why not invest now? A small amount won't make or break you, and it will, without doubt, return you handsome profits on the investment.

The world famous Lamartine mine is today considered one of the greatest gold mines in the world. Our property practically adjoins theirs, their shaft house being a little less than a mile from ours. The Lamartine has produced and is still producing its millions; there is marked similarity between their vein and the Alpine. The owners of stock in the Lamartine have been made rich by its production and their stock cannot be bought for love nor money. We honestly believe the Consolidated Alpine will do just as well, if not better, or we would not have invested our own money.

The Consolidated Alpine starts off with better prospects than did the Lamartine. It has the ore, the acreage, owing nearly two miles of the famous Alpine vein and there is no doubt but what it will prove equally, if not more, successful than did the Lamartine.

WILL SELL ONLY A FEW SHARES OF THIS STOCK!

The company will only sell a small amount of its treasury stock at 35c, because it has money in the treasury, but not quite enough to carry the underground workings as deep as we desire. Only enough of this stock will be put on the market to realize about \$10,000, and just as soon as that amount of stock is sold, the price will advance to 50c and the stock taken off the market.

THE CONSOLIDATED ALPINE, W. H. Gilbert, M. D., Secretary, Evansville, Ind.
